1. Introduction

This policy supplements the Equality, Diversity and Inclusion Statement of Intent and links with other key college policies including Safeguarding, Admissions and English and Maths.

The College aims to provide an inspirational, creative, inclusive and supported learning environment for all students and is informed by the following legislation and statutory requirements:

- SEND Code of Practice 0-25 years (2015)
- Children and Families Act (2014)
- Equality Act 2010
- Mental Capacity Act 2005
- Educational Act 1996

The College is committed to developing inclusive learning approaches and to providing additional learning support to secure learning success for all and will use its best endeavours to put appropriate support in place. The College is committed to working with local partners to provide opportunities for early assessment of individual students' needs, identify reasonable adjustments and, if need can be met, ensure a wide range of learning support strategies are implemented.

Support will be aimed at promoting student **independence** and enabling **positive progress** to reach their full potential, achieve their learning goals and progress onto further learning or into employment.

2. Scope

This policy applies to all staff of the college. The Assistant Principal High Needs and Foundation Learning has overall responsibility for the development and implementation of this policy across all campuses.

All College managers are responsible for implementing this policy. The accountability and monitoring of achieving the aims of this policy lie with Assistant Principal High Needs and Foundation Learning in conjunction with all members of the College Management Team.

3. Definitions

The following terms are used:

EHC	Education Health and Care plan. This is created by the Local Education Authority in conjunction with multi agencies to coordinate a coherent support agreement across education, health and social care for students with SEND aged 0-25. This forms a statutory legal document with defined outcomes for the student.
LDD	Learning difficulties/disabilities
SEND	Special Education Needs and Disabilities

SpLD	Specific Learning Difficulties
SEMH	Social, Emotional and Mental Health needs
Reasonable adjustment	A reasonable adjustment is a measure or action to help a student with a learning difficulty and/or disability take part in their education on the same basis as their peers.

Under the Disability Standards for Education 2005, education providers are legally required to make reasonable adjustments for students with disabilities. Examples of reasonable adjustments:

- Access to learning materials through assistive technologies such as screen readers
- Adapting the physical environment
- Exam arrangements
- Presenting learning materials in different ways such as visual, oral or demonstrations
- Adapting teaching styles, for example, breaking lesson activities into smaller chunks
- In class and/or out of class additional support

4. Procedure

Potential learners are encouraged to declare learning difficulties/disabilities and inclusion needs at the earliest opportunity to ensure that the college is able to put in reasonable adjustments and use best endeavours to allocate the right support at the right time. This can be done in multiple ways.

4.1. Learners with EHCPs (Appendix 1)

A consultation on a new application should be sent to the college's ALS team from the local authority. The EHCPs are received, recorded and tracked by the EHCP Officer who distributes to the relevant ALS Managers for a decision.

The ALS managers will review the plan and make a decision within 15 days on whether the college can meet need then confirm with the local authority.

If a learner applies directly to the college and discloses that an EHCP is in place, this must be referred to the ALS team in the first instance. **A potential new learner with a plan cannot be enrolled until the EHCP has been reviewed and the consultation completed.**

The EHCP Officer tracks and records the status of an EHCP plan and will share a list of EHCP learners with the curriculum teams prior to the start of term, regularly providing updates when new plans are received, or any changes are made. This will be managed and overseen by the Director of Additional Learning Support.

The ALS tutor will generate the initial EHCP Learning Plan, which will be uploaded onto etrackr at the start of term. See Appendix 3.

A Specialist Assessor will carry out a more formal in-depth review of the plan with the student and update the EHCP Learning Plan with specific detail. The Specialist Assessor will also make access to exam arrangements where required and liaise with the exams team. When these have been completed, information will be uploaded on eTracker and the EHCP Officer will record this on the central tracking database and provide regular updates to curriculum teams.

All learners with an EHCP will have a detailed EHCP Learning Plan that clearly identifies the adjustments and support that the student will receive. It will also be used to review learner progress and to inform the annual review.

The LSA Co-ordinator will ensure that all learners with EHCPs are case loaded appropriately amongst the LSA team. The learner's support package, outcomes and progress on the study programme, including maths and English, will be monitored by the teaching and learning teams with the LSAs and senior LSAs according to the caseload allocation.

Additional support provided in lessons is monitored through observations of teaching and learning and learning walks throughout the year.

An annual review meeting will be required each academic year co-ordinated by the EHCP Officer. Curriculum teams, including English and maths, are required to provide progress reports for the learners 2 weeks prior to the review meeting and attend the review meeting as appropriate with the LSA and LSA co-ordinator.

In exceptional circumstances, if there is a need for an urgent review of the EHCP due to a significant change in need, an early review can be called with the local authority. Equally, if there are concerns regarding a learner's progress and/or retention on the course and their progression, the curriculum manager should inform the LSA coordinator and ALS manager immediately to enable an early review to take place. All urgent and early reviews are led by the Deputy Head of Inclusion.

Under no circumstances should a learner with an EHCP be withdrawn from their programme of study. Withdrawals of EHCP learners can only occur with the agreement of the local authority. Please see above about the process for dealing with concerns regarding a learner's progress and/or retention via an early review.

Teaching staff are required **without exception** to contribute to the progress and review process of their learner with an EHCP Learning Plan as well as implement the specific strategies for learning. All information pertaining to the learner and their progress will be visible on eTrackr.

Exemptions from Programmes of Study for learners with EHCPs

In exceptional circumstances, it may be that an exemption for a learner from an element of their Programme of Study can be considered.

Examples of why an exemption might be considered:

- This element of the Programme of Study is having a negative impact on the learner's wellbeing;
- This element of the Programme of Study is putting the learner's achievement of other parts of their Programme at risk;
- This element of the Programme of Study is putting the learner's progress with their EHCP outcomes at risk.

In order for an exemption from an element of a Programme of Study to be considered, the curriculum manager should inform the LSA coordinator and Deputy Head of Inclusion. In order for any exemption to be approved, a professional statement must be completed by a specialist tutor, detailing why an exemption is appropriate. The Deputy Head of Inclusion will then convene a panel to consider the exemption and make a decision on whether the exemption is appropriate.

As part of this process, there must be full consultation with the learner, their parent/carer and the Local Authority to ensure the decision is fully understood by all parties and is in the learner's best interests.

If an exemption is agreed, the Deputy Head of Inclusion will liaise with the MIS manager to ensure the ILR is updated and all necessary evidence is in place for audit purposes.

4.3 Learners without an EHCP

All learners are encouraged to make a declaration of any learning requirements at the point of application and again during the first half term by completing a 'Learning Inclusion Declaration' form. See Appendix 4. If at any time throughout the year, the class tutor or in class support staff identify a potential learning need, the form must be completed providing as much information as possible.

The learning declaration forms are reviewed by the ALS Tutors who will triage the form to ensure the most appropriate onward referral or resolution. Any learners requiring exam arrangements will be referred to Specialist Assessors. Any adjustments required, are recorded on the 'Summary of Need for non-EHCP learners. See Appendix 5

All forms are uploaded onto e tracker and any adjustments for teaching and learning must be provided by the curriculum team. Learners without an EHCP may access in class learning support if an LSA is present in that class. LSA support is prioritised for

those with EHCPs, however, so this would need to be reviewed and agreed by the LSA Co-ordinator on a case-by-case basis.

If the learner is an adult and eligible for AEB funded provision, then a review of the most appropriate support will be considered that may include in class support, out of class ALS tutor support and/or dyslexia support depending on the needs of the learner.

In all cases, teaching and learning staff must ensure they apply the strategies as identified in the summary of need and when carrying out reviews of learner progress, must also comment on impact of support and adjustments provided in class.

5. Support Strategies

In order to identify individual strategies, the learner will meet with the Specialist Assessor to review the EHCP and understand the current situation so that appropriate support strategies can be matched. These may include one or more of the following:

- Transitional support
- In class support
- Mobility support
- Note-taking
- Specialist resources and equipment eg laptops with specialist software, dictaphones, reader pens, etc
- Counselling and wellbeing support
- Modification of learning materials
- Specialist ASC support
- Specialist SpLD support
- Counselling and mental health support.
- Additional support in maths and English and study skills where appropriate
- Extra workshops and drop in sessions
- Special arrangements for exams
- Communicator /signer

It is important to note that any support provided may not always be exactly the same as that which a learner received at previous schools. The College aims to support learners to become as independent as possible, which includes reviewing alternative support mechanisms that allow them to learn, and not be disadvantaged, whilst developing independent living skills.

Learners have the right to refuse any additional support suggested and offered at any time. If support is refused initially, the details will be kept on file and if at any time during the studies the learner wishes to revisit this, then the support offer will be reviewed, and implementation agreed by the ALS tutors.

6. Key Partners

The College mainly works with (but is not limited to working with) the following local authorities in relation to students with Education, Health and Care plans and those who require further element 3 top-up funding from the local authority ie those learners who are 'High Needs':

- Bromley
- Lewisham
- Greenwich
- Southwark
- Croydon
- Bexley
- Kent
- Lambeth

7. Roles and Responsibilities

All College staff have a responsibility for creating a warm and positive atmosphere and ensuring everyone has access to college facilities and events.

The ALS department will work collaboratively with colleagues within Higher Education (HE) to support and facilitate applications approved by DSA certificate. The ALS department will sign post and provide information concerning support issues to students on HE courses.

Key staff within the organisation have specific responsibilities for learning and support of learners with SEND. See appendix 6 for an overview of the ALS team roles.

7.1. Staff should:

- Monitor the flexibility of course provision to ensure that people with a disability are not excluded unnecessarily.
- Review teaching styles and practices to ensure that provision is accessible and that reasonable adjustments are built-in to anticipate likely support needs.
- Ensure that recruitment, assessment and examination arrangements are flexible to the needs of all students and anticipate the need for any reasonable adjustments.
- Encourage students to disclose a disability where it would enable additional adjustments, exam/ assessment arrangement or auxiliary aids to be put in place whilst maintaining confidentiality to the level requested by the student, wherever possible.

- Ensure that all full time students complete an initial assessment at or prior to the beginning of their course and part-time students complete an Initial Assessment as appropriate. The results will help identify English and maths support needs and decide whether the provision of additional learning support would be of benefit to the student.
- Maintain effective working links with Additional Learning Support staff to maximise inclusive practice through person-centred planning and effective communication.
- Monitor and review (making appropriate adjustments) the accessibility to College services such as Information, Advice and Guidance, Student Support, Welfare and Counselling, Learning Resource Centre, Restaurant services, recreational facilities and transport.

7.2. College managers will ensure that:

- Governors are aware of their anticipatory duty to ensure an appropriate strategic response to the Equality Act 2010.
- All staff receive training on their responsibilities under the requirements of current College's Additional Learning Support policy and understand their responsibilities and the demands it places on them.
- Sufficient resources are available to fund the anticipated reasonable adjustments to meet the needs of the students who have a disability and to respond to individual cases.
- Effective systems and procedures are in place for the promotion, referral, identification and provision of additional learning support, including learning agreements, review of need and effectiveness of the service.
- Key performance indicators and any differences in success for different groups are identified and actioned through Self-Assessment in conjunction with College's Equality, Diversity and Inclusion Statement.

7.3. Financial resources

- The College recognises the challenge of enhancing the quality of additional learning support across the College and is committed to adopting a student led resources allocation model within the budget available.
- Local authorities provide top up funding to support High Needs students and where this is available, it will be used to provide support to those specific learners.

- For students without additional funding, the College will make reasonable adjustments to meet the needs of the learner.
- Additional funding is available to support apprentices and this funding will be claimed to cover the support provided.

8. Continuous Professional Development

Individual staff development needs are assessed through the appraisal process for academic and support staff and are informed by lesson observations and quality performance monitoring.

Regular updating of training relating to specific learning difficulties and disabilities as well as specialist training takes place annually.

The ALS team will offer training and guidance to college staff to assist them in supporting learners to take control of their own learning and develop as independent learners.

The ALS team will also support the process of continuous improvement in the quality of teaching and learning.

Teachers will complete a Personalised Teaching Programme to understand:

- their roles and responsibilities for ALS/ EHCP Learners
- specialist TLA Strategies for Learners with SEND
- how to personalise Learning
- how to maximise the use of ALS support

This training will be updated annually, with all new teachers being required to complete the programme as part of their induction.

In addition, each Directorate must nominate a SEND Champion, that will drive forward the training and use of good practice to ensure the highest quality support and delivery.

9. Quality

The Deputy Heads of Inclusion will audit learners' electronic records completed by LSAs. This is subject to internal and external audit procedures.

The performance and progress of learners receiving support will be reviewed termly by the LSAs and the teachers using the EHCP Learning Plan.

Attendance, in year retention and overall achievement of learners in receipt of support and learners with EHCPs who are high needs funded, will be monitored by the Assistant Principal and reported on to the senior leadership team on a monthly basis.

The Director of ALS will be responsible for ensuring funding for learners is monitored.

ALS procedures are reviewed on a regular basis and feedback is sought from learners and staff to determine its effectiveness and appropriateness.

Procedures may be amended as necessary to respond to new legislation, funding restrictions or feedback received.

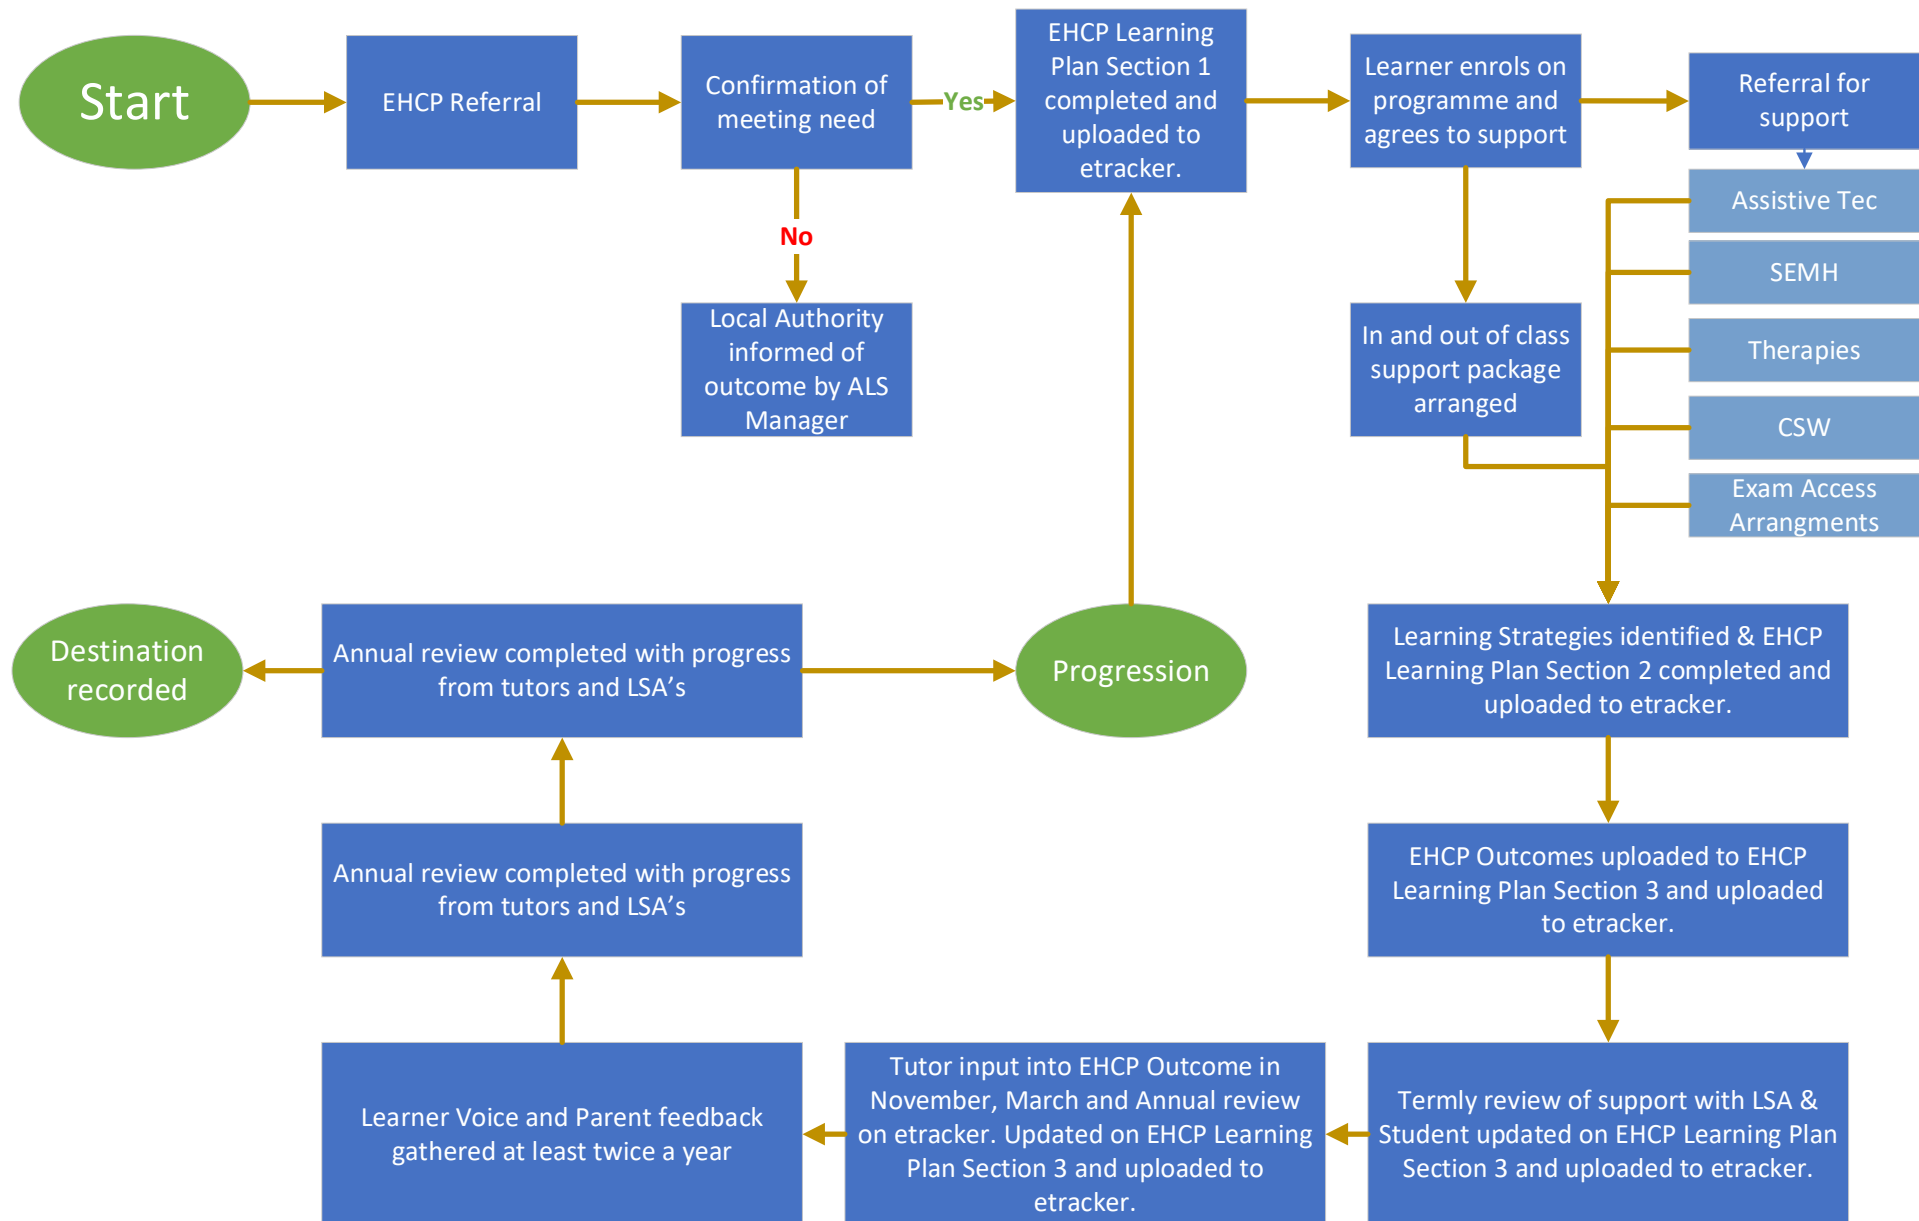

10. Review of the Policy

The College self-assessment report will provide evidence to demonstrate the effectiveness of this policy through the recruitment, retention and achievement of learners with a learning disability and/or difficulty as well as learner voice.

The Equality and Diversity Committee will consider equality of opportunities for ALS students.

Annual Review

Name and Designation	Invited ✓	Present ✓
Student-	✓	<input type="checkbox"/>
Parents-	✓	<input type="checkbox"/>
Representative from the Local Borough	✓	<input type="checkbox"/>
Teachers	✓	<input type="checkbox"/>
Learning Support Assistant	✓	<input type="checkbox"/>
Specialist Tutor & Assessor	✓	<input type="checkbox"/>

Context

The information set out in the Education Health and Care Plan is for an education phase which would normally last between 1 and 3 years in further education. The review is to ensure the young person is progressing towards the outcomes set out in the plan and to confirm that the support levels are appropriate in order to meet needs.

It is not anticipated that any changes to the EHC Plan would be made during a 'phase' unless there are specific circumstances or presenting needs that have significantly changed the nature of the outcomes, provision or support. Individual target setting to progress towards outcomes should be amended as necessary by the provider.

The Annual Review will cover the following:

1. Review of progress against outcomes (*section 3*)
2. Progression/ Destination plan
3. Provision and support levels
4. Health Provision
5. Social Care Provision
6. Amending outcomes (exceptional circumstances only);
7. Agreed actions

Progression/ Destination plan	
Progression (Next steps)	Destination (Intended)

Provision and Support Levels

Social care provision

Other comments

Amending outcomes <i>(exceptional circumstances)</i>

Agreed actions (if applicable)		
Action	By whom	By when

Annual review documentation completed by:			
Name (print):		Title:	
Name (signature):		Date:	

The review paperwork will be forwarded to the student's allocated Local Authority EHCP Coordinator' for review and a hard copy sent to parents/guardians.

Where changes to the EHC Plan have been requested, this will be considered by the local authority and further information may be requested before presenting to panel for a decision. A response should, in most circumstances, be provided within 14 days.

Appendix 4- Learning Inclusion Declaration

Learning Inclusion Declaration 2023/24

Student Name		Student ID	
Student Date of Birth		Student age (as of 31st August)	
Borough of residence		Previous place of education	
Course Name		Course Code	
Maths qualification or IDA		English qualification or IDA	
Do you have an Education, Health and Care Plan		Yes/No	

Have you previously had special arrangements in exams at school or in another college? YES / NO
<i>If YES, circle the boxes that apply to you:</i>

25% Extra time	Scribe	Paper Based Exam	Screen reader	Practical Assistant	Reader	Oral Language Modifier
50% Extra Time	PC/Laptop	Small Group	Rest breaks	Signer for BSL	Own Room	Braille Paper
More than 50% Extra time	Coloured Paper – (state colour)	Coloured Overlay – (state colour)	Prompter	Voice Recognition software	Bilingual Dictionary	Large print questions

Please tick the support needs which apply to you:

	Category	Tick if applicable	Please provide specific difficulties and explain how it impacts on your learning
4	Visual impairment		
5	Hearing impairment		
6	Disability affecting mobility		
7	Profound and multiple disabilities		
8	Social and emotional difficulties e.g. anxiety, self harm		
9	Mental health difficulty		
10	Moderate learning difficulty		
11	Severe learning difficulty		
12	Dyslexia		
13	Dyscalculia		
14	Autism spectrum disorder		
16	Temporary disability after illness (e.g. post-viral) or accident		
17	Speech, Language and Communication Needs		
	Medical or other Condition (eg epilepsy, asthma, diabetes) – please specify:		

This section MUST be completed by the class tutor or LSA making the referral:

Referrer name		Role & Dept	
What evidence have you seen or observed of a learning need (eg Form 8, diagnostic reports, CAMHS report, Ed Psych reports)			
What adjustments are currently made in class to mitigate difficulties			
Learner attendance %			

If a learner requires extra time for exams, the staff observation form must be completed by the tutor. The form can be found via this link:

<https://forms.office.com/e/VaLCUDAdSX>

General Data Protection Regulation (GDPR) CONSENT TO SHARE/REQUEST INFORMATION

You have disclosed sensitive personal information to a Learner Inclusion staff member. This information will be stored securely and confidentially in line with College policy*. In order to support you, we may need to share information with, or request information from internal staff and/or external agencies, shown below.

This will happen electronically by email or by telephone, but only on a need-to-know basis.

We would like to have your consent to do this (but please note that in some circumstances the College will need to share information to safeguard your wellbeing, or that of someone else, without consent).

I agree that Personal Information can be shared with, or requested from:

- Teachers and tutors
- Relevant College services
- Next of kin / parent / carer telephone number
- Next of kin / parent / carer email address
- Contact details of other external agencies eg Local authority, previous schools
- Exam Awarding Organisations for exam arrangements

I understand that I can withdraw this consent at any time by sending an email to als@lsec.ac.uk

Appendix 6- Referrals from external Healthcare Providers and Trusts

Context:

The college is receiving increased numbers of referrals from external Healthcare Providers and Trusts including Bromley Healthcare and Oxleas. These referrals relate to assessment for diagnoses of a range of conditions, including ASD, Social Communication Difficulties, and other neurodivergent conditions.

Actions:

Responses to these requests can be made by Specialist Tutors and ALS Managers. Should these requests be received by any other members of the ALS team or other college staff, they should be passed to an ALS manager.

The response to these requests should be as follows:

As a college of further education, LSEC is not structured in the same way as a secondary school and does not have educational psychologists or SENCOs in post. We are happy to facilitate assessment by external organisations and will do all we can to enable appropriate professionals to attend our setting to conduct their assessments, through their observations of and interactions with learners.

Procedure

Apprentices are encouraged to declare learning difficulties/disabilities and inclusion needs at the earliest opportunity to ensure that the college can put reasonable adjustments in place and use best endeavours to allocate the right support at the right time.

All Apprentices are encouraged to make a declaration of any learning requirements at the point of application and again during induction by completing a Learning Inclusion Declaration form. If at any time throughout the year, their skills coach, a class tutor, or in-class support staff identify a potential learning need, the form must be completed, providing as much information as possible.

The learning declaration forms are reviewed by the ALS Apprentice Co-ordinator and other members of the ALS Team who will triage them to ensure the most appropriate onward referral or resolution. Any Apprentices requiring exam arrangements will be referred to Specialist Assessors. Any adjustments required are recorded on the Apprentice's Learning Support Plan Summary of Need form (see Appendix 5).

All forms are uploaded onto Smart Assessor. A review of the most appropriate support will be considered that may include in class support, out of class support and support and/or adjustments in the workplace.

In all cases, the relevant staff must ensure they apply the strategies as identified in the Learning Support Plan Summary of Need. Monthly reviews of need will comment on the impact of support and adjustments and whether any changes to support arrangements need to be made. All staff working with the Apprentice are expected to contribute to the review process, flagging up any potential changes to support arrangements.

Support Strategies

The approach to support strategies and examples of strategies are described in Section 5 of the policy. In addition, reasonable adjustments in the workplace must also be considered. All agreed strategies and adjustments should be reviewed on a monthly basis to ensure they remain fit for purpose.

Roles and Responsibilities

In addition to the roles and responsibilities described in Section 7, key roles relating to ALS for Apprenticeships include:

- Skills Coaches;
- Key Account Managers (KAMs);

- Apprenticeship Co-ordinators;
- ALS Apprenticeship Co-ordinator;
- ALS Data Officer.

During the on-boarding and enrolment process, KAMs will discuss what potential ALS could be available to the apprentice and how this will be assessed. The KAM will discuss the need for the apprentice to provide documents/evidence if they have been supported previously (e.g.: at school).

During the induction and initial assessment process, Skills Coaches will discuss support needs and any reasonable adjustments with the apprentice and complete a Learner Declaration form with the apprentice if required, providing as much detail as possible.

The Apprentice Co-ordinators will oversee the onboarding, initial assessment and induction process to ensure that all Apprentices are aware of the ALS that could be available and that they have completed Learner Declaration forms if required.

The ALS Apprenticeship Co-ordinator will liaise with KAMs, Skills Coaches, Apprentice Co-ordinators and MIS to establish which apprentices have declared support needs, arrange assessments with specialists as required and oversee referrals for support and the arrangement of support packages.

The ALS Apprenticeship Co-ordinator will remain the key contact for the Apprenticeship team and the ALS team, keeping support for Apprentices under review in light of feedback from ALS staff and Skills Coaches via monthly reviews.

The ALS Data Officer will liaise with MIS to establish a list of Apprentices with declared needs and update that list on a monthly basis to reflect new starts, completers, withdrawals and any changes of support need. The ALS Data Officer will work with MIS to establish funding for supported Apprentices and provide information as required for ALS funding claims.

The ALS Data Officer will work with the ALS Co-ordinator to ensure Smart Assessor records are up to date and sufficient for audit purposes.

Continuing Professional Development

In addition to the CPD activities described in Section 8, members of the ALS team will provide an update to the Apprenticeship team half termly. This will include any relevant professional development updates on ALS that the Apprenticeship team requires.

Quality

The ALS and Apprenticeship managers will audit learners' electronic records completed by ALS staff and Apprenticeship staff working with Apprentices receiving support. This is subject to internal and external audit procedures.

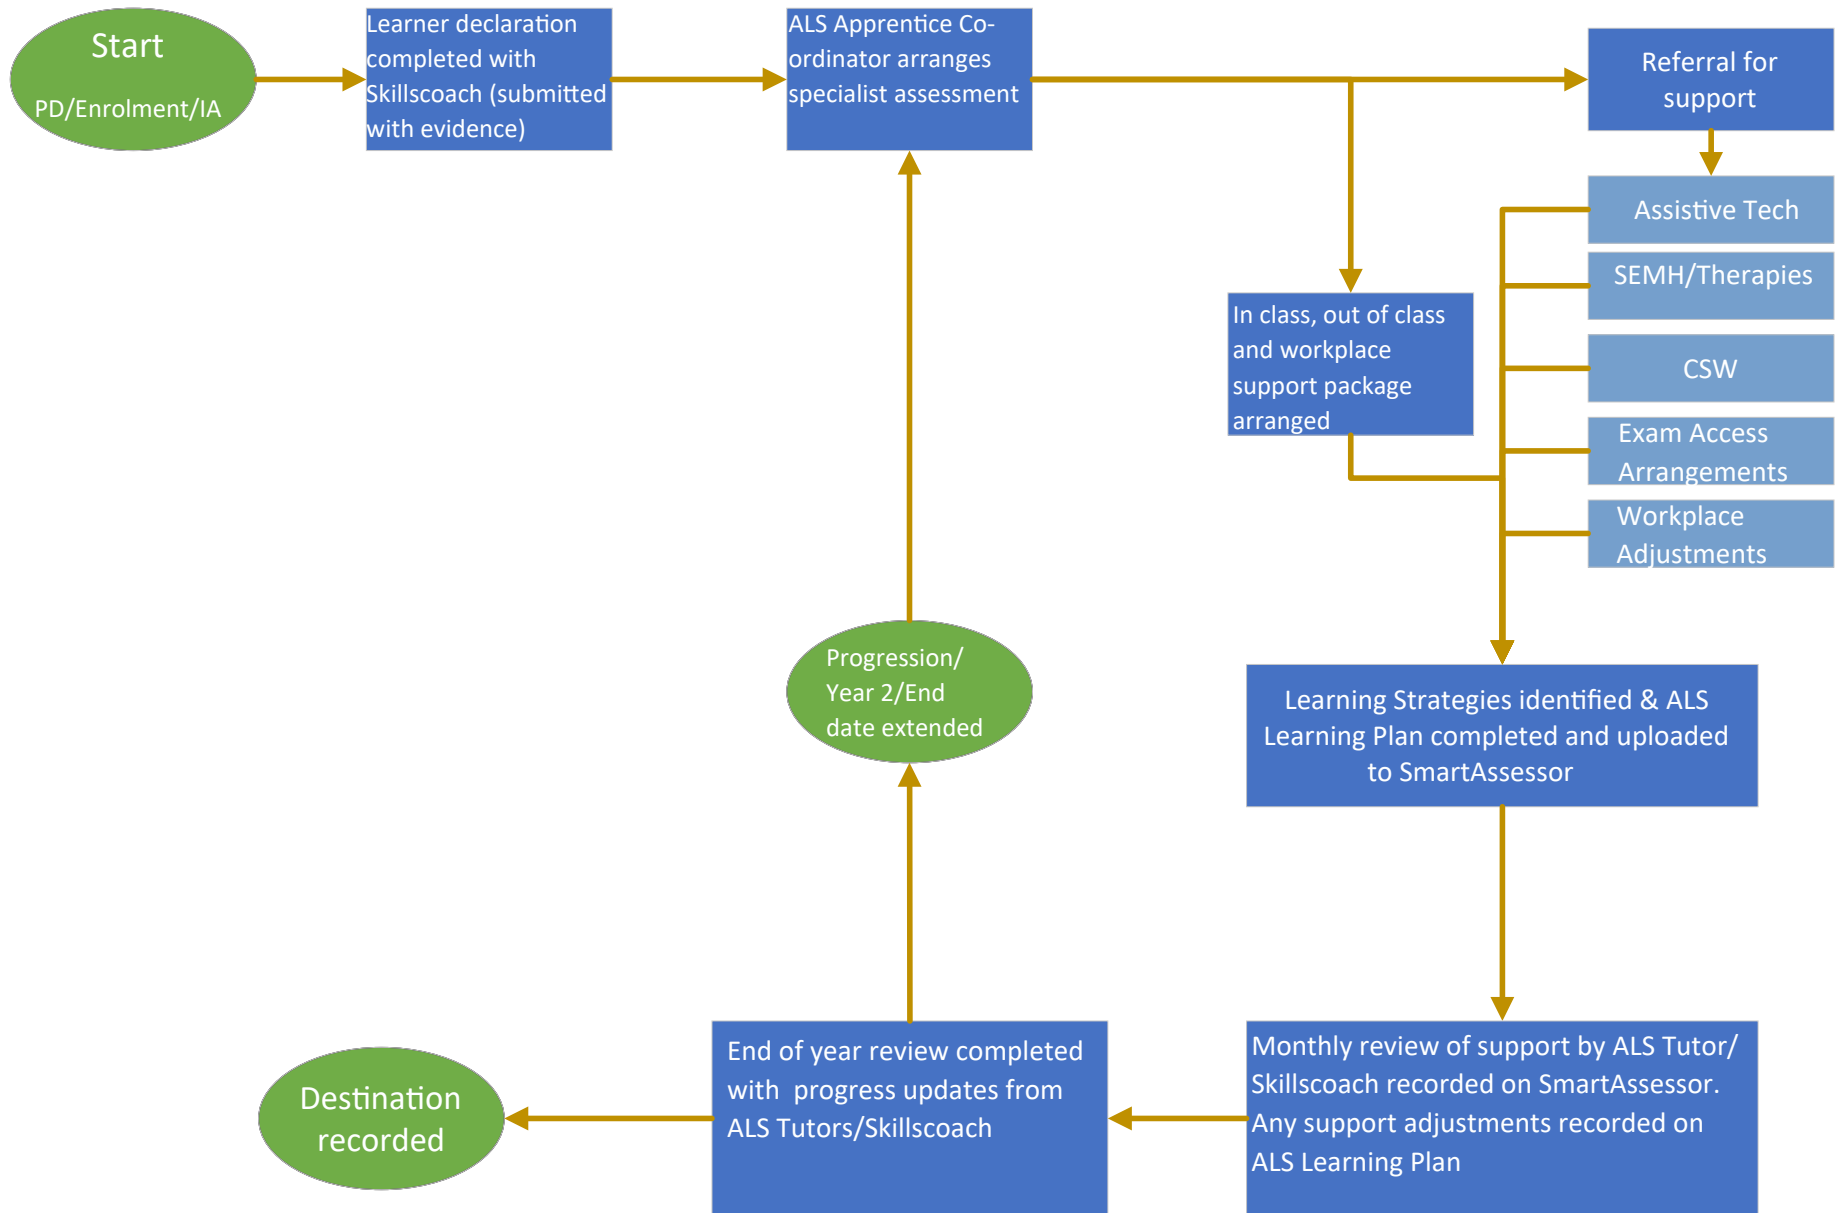

The performance and progress of Apprentices receiving support will be reviewed monthly by ALS and Apprenticeship staff working with them. The review will be recorded on Smart Assessor.

Attendance, in year retention and overall achievement of Apprentices in receipt of support will be monitored by the Assistant Principal and reported to the senior leadership team on a monthly basis.

The ALS Funding Lead will be responsible for ensuring ALS funding for Apprentices is monitored.

ALS procedures for Apprentices are reviewed on a regular basis and feedback is sought from learners and staff to determine its effectiveness and appropriateness. Procedures may be amended as necessary to respond to new legislation, funding restrictions or feedback received.

ALS Process for Apprentices with Additional Learning Needs

Additional Learning Support Team Roles

Director of Additional Learning Support

- Responsibility for funding and income for High Needs cross college learners liaising with local authorities
- Responsibility and oversight of e-spirals and reporting
- Management of complaints learners/EHCPs
- Ensure suff
- Quality assurance and auc
- Report of attendance, retr

Deputy Heads of Inclusion

- Leadership and line management of ALS teams across all sites in cross college provision
- Carry out quality assurance of support eg LSA observations and review of learner files
- Liaise with LAs and parents
- Ensure allocation of resource meets learner need
- Complete timely consultations on EHCP
- Liaise with curriculum management tea
- Complete EHCP reviews

LSA Co-Ordinators

Co-ordinate the support provided by LSAs in lessons

- Day to day line management of LSAs
- Timetable LSAs on spirals
- Co-ordinate in class support working in collaboration with the ALS tutors to
- Allocate non-staffing resource requirements as identified in the EHCP
- Liaise with external providers to ensure learner needs are met eg (SaLT, OH, physio)
- Ensure EHCP reviews are completed
- Support point of contact for parents
- Contribute to the EHCP review meetings
- Regularly attend curriculum team meetings to update and share information
- Liaise with exams to provide LSA support for access to exams

Senior Learning Support Assistants

To hold specialist knowledge and experience in a specific category of need

- Extensive experience and background in education setting
- Provide further support to LSAs, ALS tutors and specialist assessors
- Provide in class support
- Linked to curriculum area and attend curriculum team meetings

EHCP Officer

- Receives and records new EHCPs
- Maintain central record tracking progress of consultation, progression, annual reviews, exam arrangements and learner declarations
- Arranges annual reviews and emergency in year reviews

ALS Tutors

To provide out of class 1-1 or small group support to learners who have declared a learning need

- Generate the EHCP learning plan and liaise with LSAs and specialist assessors
- Triage learner declaration forms and signpost to appropriate support team
- Generate the learning and support plan for non-EHCP learners and upload onto etracker
- Attend curriculum team meetings
- To act as an advocate on behalf of the learner
- Contribute to the Education Health and Care Plan (EHCP) review and attend EHCP review meetings
- Monitor progress and record support sessions on e-spirals

Specialist Assessors

To review the EHCP in detail with the student and provide specialist support and ensure exam access arrangements are in place. To provide specialist tuition.

- Assess support needs of learners with an EHCP
- Complete the EHCP learning plan providing specific guidance on teaching and learning strategies
- Provide out of class specialist tuition to learners with dyslexia
- Assess learners for Exam Access Arrangements (EAA) and process applications for EAA
- To record exam arrangements on e-spirals and liaise with exams and tutors on arrangements
- To assess as appropriate, students without an EHCP for exam arrangements and identify specific support needs

Data Officer

- Input all ALS and EHCP data onto e-Spirals, Unit-e and e-tracker where required
- Report on progress against plans and funding generated

Learning Support Assistants
