

LEVEL 2 BRICKLAYER

Bricklayers lay bricks, blocks and other types of building components in mortar to construct and repair walls, foundations, partitions, arches and other structures, e.g. chimney stacks. They might also refurbish brickwork and masonry on restoration projects. The range of sites and projects that bricklayers will work on include significant commercial developments, new builds in housing, alterations, extensions and restorations. A bricklayer may work one-on-one or on larger jobs where their bricklaying group (gang) may work on a particular section of a building alongside other bricklaying gangs and other trades.

DELIVERY OVER 27 MONTHS

END POINT ASSESSMENT

- Knowledge Test
- Skills Test
- Oral Questioning – underpinned by portfolio
